PROFILE

Economics senior and Apple Developer Academy alumna focused on building user-centered digital products. I combine business strategy, product thinking, UI/UX design, and technical implementation to turn ideas into impactful products from concept to launch.

EDUCATION

Education Scholarship, *Apple Developer Academy at TUWAIQ* Aug 2025 – Jun 2026

Bachelor's degree, Economics, *Princess Nourah Bint Abdulrahman University* 2022 – Present

PROJECTS

Suhail 🔗, *Apple Developer Academy, Product Designer* Mar 2026 – Present

- Designed an iOS safety app to preserve critical trip details and alert emergency contacts, bridging the information gap to accelerate desert rescue missions.
- Built a scalable design system utilizing advanced Figma components to ensure a consistent UI.
- Showcased the project on stage at the Apple Developer Academy graduation.

RECLAB App, *Personal Project, Product Designer & iOS Developer* Jan 2026 – Present

- Developed an iOS personal-logging app for multipotentialites to document and track diverse experiments.
- Designed a clean, native card-based UI in Figma, turning the initial concept into a fully functional application.

Qaffatek 🔗, *Apple Developer Academy, Product Designer & iOS Developer* Sep 2025 – Mar 2026

- Launched an iOS game to the App Store, transforming a traditional paper game into a seamless digital experience.
- Built with SwiftUI and MVVM architecture, implementing iterative improvements based on beta user feedback from TestFlight.
- Designed a simple Figma interface, allowing players to instantly get their roles and focus on real-world interaction.

Moheetik App, *Apple Developer Academy, Lead iOS Developer & Product Designer* Nov 2025 – Jan 2026

- Developed an assistive iOS app enabling visually impaired users to navigate independently via real-time Arabic audio and haptic feedback.
- Engineered a custom Core ML model trained from scratch to detect doors and stairs, surpassing the limitations of standard models.
- Showcased the functional MVP at the Authority for People with Disability (APD) to validate the solution with users.

Brewcha Studio, *Entrepreneurship Project, PNU, Product Manager & Designer* Sep 2025 – Nov 2025

- Led the end-to-end development of a DIY beverage workshop, managing the strategic vision and final report coordination.
- Designed a cohesive brand identity and a Figma prototype, producing custom assets including packaging, stickers, and cards.
- Executed a live prototype workshop, directing team roles and operations to validate the business model through user feedback.

Digital Payments Impact on Korean SMEs,

Sep 2025 – Nov 2025

Applied Research in Economics, PNU, Independent Researcher

- Analyzed 10 years of Korean macroeconomic data using R to measure the impact of digital payment adoption on SME survival rates.
- Developed statistical models including Multiple Linear Regression and EFA to evaluate financial trends and business resilience.
- Identified that a hybrid payment ecosystem significantly reduces operational risks for small businesses during economic crises.

CERTIFICATIONS

User Experience (UX) Design Virtual Work Experience, <i>Foodics x Misk Skills</i>	Oct 2025
Certificate in Introduction to Securities & Investment (Kingdom of Saudi Arabia) (CME-1), <i>CISI</i>	Aug 2025
BSF Intro to Financial Sustainability  , <i>Udacity</i>	Feb 2025
Data Fundamentals, <i>IBM</i>	Oct 2024

SKILLS

Product & Analysis: Product Strategy | Design Thinking | Business Strategy (BMC, Value Proposition) | User Research (Interviews & Usability Testing) | Market & Competitive Analysis | Agile (Scrum) | MVP Definition | Feature Prioritization | Product Roadmapping | Product Documentation

Design: Figma (Auto Layout, Components) | Design Systems | User Flows | Apple HIG | Developer Handoff

Technical: Swift | SwiftUI | MVVM Architecture | Git/GitHub | Core ML | TestFlight | App Store Connect
