PROFILE

Economics senior & Apple Developer Academy student. Bridging the gap between business strategy, UI/UX design, and iOS development to build highly impactful digital products.

EDUCATION

Education Scholarship, *Apple Developer Academy at TUWAIQ* 2025 – Present

Bachelor's degree, Economics, *Princess Nourah Bint Abdulrahman University* 2022 – Present

PROJECTS

RECLAB App, *Personal Project, iOS Developer & Product Designer* Jan 2026 – Present

- Developed an iOS personal-logging app for multipotentialites to document and track diverse experiments.
- Designed a clean, native card-based UI in Figma, turning the initial concept into a fully functional application.

Qaffatek 📱, *Apple Developer Academy, iOS Developer & Product Designer* Sep 2025 – Mar 2026

- Launched an iOS game to the App Store, transforming a traditional paper game into a seamless digital experience.
- Built with SwiftUI and MVVM architecture, implementing iterative improvements based on beta user feedback from TestFlight.
- Designed a simple Figma interface, allowing players to instantly get their roles and focus on real-world interaction.

Moheetik App, *Apple Developer Academy, Lead iOS Developer & Product Designer* Nov 2025 – Jan 2026

- Developed an assistive iOS app enabling visually impaired users to navigate independently via real-time Arabic audio and haptic feedback.
- Engineered a custom Core ML model trained from scratch to detect doors and stairs, surpassing the limitations of standard models.
- Showcased the functional MVP at the Authority for People with Disability (APD) to validate the solution with users.

Brewcha Studio, *Entrepreneurship Project, PNU, Product Manager & Designer* Sep 2025 – Nov 2025

- Led the end-to-end development of a DIY beverage workshop, managing the strategic vision and final report coordination.
- Designed a cohesive brand identity and a Figma prototype, producing custom assets including packaging, stickers, and cards.
- Executed a live prototype workshop, directing team roles and operations to validate the business model through user feedback.

Digital Payments Impact on Korean SMEs, Sep 2025 – Nov 2025

Applied Research in Economics, PNU, Independent Researcher

- Analyzed 10 years of Korean macroeconomic data using R to measure the impact of digital payment adoption on SME survival rates.
- Developed statistical models including Multiple Linear Regression and EFA to evaluate financial trends and business resilience.
- Identified that a hybrid payment ecosystem significantly reduces operational risks for small businesses during economic crises.

CERTIFICATIONS

User Experience (UX) Design Virtual Work Experience, <i>Foodics x Misk Skills</i>	Oct 2025
Certificate in Introduction to Securities & Investment (Kingdom of Saudi Arabia) (CME-1), <i>CISI</i>	Aug 2025
BSF Intro to Financial Sustainability ↗ , <i>Udacity</i>	Feb 2025
Data Fundamentals, <i>IBM</i>	Oct 2024

SKILLS

Technical: Swift, SwiftUI, Core ML, MVVM Architecture, API, Git/GitHub, iOS Accessibility (VoiceOver, Dynamic Type), Cursor (AI-Assisted Development), TestFlight, App Store Connect.

Design: Figma (Auto Layout, Components), Design Systems, Apple Human Interface Guidelines (HIG), User Flows, User Research (Interviews & Usability Testing), Developer Handoff, Inclusive Design.

Product & Analysis: Agile (Scrum), Design Thinking, Product Development (End-to-End), Business Analysis (BMC, MVP Strategy), Market & Competitive Analysis, Data Analysis & Visualization.
